---

## PROFESSIONAL SUMMARY

Aspiring Artificial Intelligence and Machine Learning Engineer with hands-on experience in developing AI-powered applications, Large Language Models (LLMs), and NLP solutions. Seeking an opportunity to apply my skills in software development, machine learning, and problem-solving to real-world challenges. Eager to contribute to innovative projects, learn from industry experts, and continuously enhance my technical expertise while growing in a collaborative and dynamic environment.

---

## WORK EXPERIENCE

### Next24tech Technology & Services LLP

MAY 2024 - JULY 2024

Web Development Intern

- Developed and deployed three web projects: a personal portfolio Website, an e-commerce site, and an e-learning platform.
- Built responsive user interfaces and integrated dynamic content sections implemented interactive features, and user-focused functionality.

### White And Box - Tech Products & Services

JUNE 2025 - JULY 2025

Artificial Intelligence and Machine Learning Intern

- Developed a custom LLM-based employee query system using Hugging Face Transformers, Python, and PyTorch.
- Implemented NLP pipelines for preprocessing, training, evaluation, and real-time response generation.
- Collaborated in an Agile team to optimize model performance and enhance system accuracy.

---

## PROJECTS

### STUTTERSENSE: CLINICAL AI SPEECH FLUENCY ANALYZER

- Developed a custom Transformer Encoder model with a Librosa-based audio processing pipeline to detect clinical speech disfluencies in real time.
- Engineered an interactive Streamlit dashboard to assist clinicians by visualizing live stuttering event timelines and dynamic speech metrics.
- Tech Stack: Python, TensorFlow/Keras, Transformers, Librosa, Streamlit, Scikit-learn.

### SOCIIFY: A DATABASE-DRIVEN SOCIAL MEDIA PLATFORM FOR INTERACTIVE USER ENGAGEMENT

- Developed a full-stack social media web application replicating key features of platforms like Instagram, including user authentication, post creation, likes, comments, follow/unfollow, and real-time search.
  - Gained hands-on experience in secure authentication, RESTful API design, cloud-based media handling, responsive UI/UX, and full-stack deployment using modern web development practices.
-

---

## EDUCATION

Karunya Institute of Technology and Sciences  
BTech CSE (AIML)

AUG 2023 – PRESENT  
CGPA : 7.4

---

## TECHNICAL SKILLS

- **Programming Languages:** Python, Java
  - **Tools & Operating Systems:** Google Colab, Jupyter Notebook, Git & GitHub, VS Code
  - **Web Development:** HTML, CSS, JavaScript, MERN Stack
- 

## CERTIFICATIONS / LANGUAGES

- **NPTEL IITM Certification** - English Language for Competitive Exams
  - **Google Certification** - Foundations of Cybersecurity
  - **UiPath Certification** - Foundations of UiPath
  - **Languages** – English, Tamil, Hindi
- 

## PUBLICATIONS

- Presented and published the paper “TabTransformer-X Driven Feature-Optimized and Explainable Hybrid Ensemble Learning for Early Parkinson’s Disease Detection” at the 7th International Conference on Intelligent Communication Technologies and Virtual Mobile Networks (ICICV 2026) in association with IEEE.
- 

## LEADERSHIP & EXTRACURRICULAR

- **Chair of District Priority Projects – Rotaract Club of Karunya University:** Leading the planning, coordination, and execution of district-level community service initiatives aligned with Rotary goals. Collaborating with club leaders and district officials to drive impactful projects, manage resources, and promote volunteer engagement across multiple Rotaract clubs.
